

Fig. 1

2/11

This diagram shows a cross-sectional view of a fluid control device. A vertical wall 202 is on the left, with a hatched region 214 and a vertical line 216. A wedge-shaped member 302 is positioned against the wall, with its tip 306 and a sloped surface 304. A horizontal member 204 is below the wedge, with a hatched region 224. A fluid passage 326 is shown above the wedge. A vertical double-headed arrow indicates fluid flow, and the word "FLUID" is written in the passage. A zigzag line is at the bottom.
